SUBJECT INDEX

a

Abilities; **1**: 12.
Academic performance tests; **4**: 135.
Achievement; **3**: 98, 100; **4**: 136, 145, 156.
Achievement motivation; **4**: 140.
Achievement Treatment Interactions (ATI); **4**: 131.
AI; **4**: 175.
Alternative media storage/retrieval systems; **2**: 83.
Analysis of variance; **4**: 140.
ANSER; **3**: 122.
Answer formats; **4**: 125.
Applesoft BASIC; **2**: 81.
Apple III; **3**: 112.
Apple II microcomputer; **3**: 123.
Apple II Plus microcomputer; **2**: 84.
Applications; **3**: 113.
Aptitudes; **1**: 12; **4**: 140, 156.
Aptitude Treatment Interactions (ATI); **4**: 131, 156.
Army Research Institute; **4**: 169.
ATI research; **4**: 156, 164.
Atmosphere effects; **4**: 128.
Attitudes toward CAI; **3**: 99, 118; **4**: 139.
Aural skills learning system; **2**: 55, 74.

b

Basic electricity and electronics; **1**: 10; **4**: 157.
Basic options for communications through computers; **2**: 84.
BASIC-PLUS computer language; **3**: 101.
BASIC programming; **1**: 31.
BASIC programming language; **2**: 84.
BASIC programs for the Apple computer; **2**: 80, 81.
Basics of music; **2**: 64.
Batch processing; **3**: 89.
Benefits of confidence testing; **1**: 1, 3.
Benefits of the PLATO system; **4**: 154.
Biomedical computer-assisted instruction; **4**: 176.
Budget; **4**: 151.

c

CAI and achievement; **4**: 136.
CAI and attitude; **4**: 139.
CAI and instructional interactions; **4**: 140.
CAI and retention; **4**: 137.
CAI evaluation form; **4**: 134.
CAI in the health professions; **3**: 98.
California Psychological Inventory (CPI); **4**: 134.
Capital investment in PLATO; **4**: 149.
Categories of confidence testing methods; **1**: 1.
CBI and MEDICI; **2**: 65.
CBI research and development centers; **2**: 78; **4**: 169, 171.
Center for Music Research, Florida State University; **4**: 171.
"Chained" problems; **3**: 113.
"Christmas tree"; **3**: 91.
Classical reliability of scores; **1**: 3.
Classroom delinquency; **4**: 145.
Clinical case simulations; **3**: 113.
Clinical simulations; **3**: 108.
Cluster analyzed; **1**: 12.
Cognitive ability; **1**: 11; **4**: 157.
Cognitive aptitude; **1**: 11; **4**: 157.
Cognitive characteristics; **1**: 11; **4**: 157.
Cognitive components of achievement; **4**: 156.
Cognitive mediators; **1**: 17.
Cognitive predictors of achievement; **4**: 164.
Cognitive rehabilitation; **2**: 85.
Cognitive style; **1**: 11, 12; **4**: 157.
Collaborative Activation-based Production System (CAPS); **2**: 83.
Competency-based education (CBE) **2**: 55, 82.
Components in CBI budget; **4**: 151.
Component structure of cognitive characteristics; **4**: 160.
Computer aided learning; **4**: 146.
Computer-Aided Simulation of the clinical Encounter (CASE); **3**: 109.
Computer-assisted confidence testing; **3**: 88.
Computer-assisted education; **1**: 19.
Computer-assisted instruction (CAI); **2**: 85; **3**: 98; **4**: 131, 145, 173.
  fields
    nursing education; **3**: 98.
    pharmacology; **4**: 131.
Computer assisted instruction course; **4**: 146.
Computer-assisted learning; **1**: 19.
Computer Assisted Teaching System (CATS); **4**: 132.
Computer-based communication technologies in knowledge synthesis; **2**: 84.
Computer-based confidence testing; **1**: 1.
Computer-based ear training; **2**: 74.
Computer-based instruction (CBI); **2**: 64, 74, 85; **4**: 124, 148, 169, 173.
  fields
    music; **2**: 64, 74, 85.
  in a university environment; **4**: 148.
Computer-based instructional systems; **4**: 124.
Computer-based simulations; **3**: 109.
Computer clinical simulations in health sciences; **3**: 108.
Computer files; **4**: 174.
Computer games, puzzles, and problems; **2**: 81.
Computerized program for internal medicine; **3**: 115.
